सूची २ Author Guidelines

1. The manuscript must be original work written in English and not published elsewhere.
2. Thematic Areas: The manuscript should be on following thematic areas: value chain and supply chain of agriculture products, Agri-production/good management practices, biodiversity conservation, impact of global warming and climate change in agriculture, agriculture mechanization and other local, global issues of agriculture and innovative agriculture technology.
3. Title: The title should be short and specific, but it should reflect the contents in manuscript.
4. Author(s): Name of the author(s) and their affiliations should be clearly mentioned by superscript (¹²³) following the title in new paragraph in Times New roman 10 point font size.
5. Abstract

The abstract section should include following:

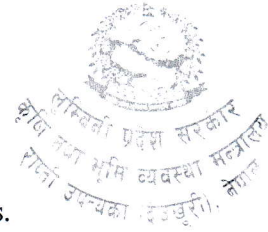

- Abstract should be written in English and be followed by Abstract in Nepali (अध्ययनको सार)
 - The total number of words in this section should not exceed 200 for English and 500 words for Devanagari.
 - Font size should be 12- point in Times New Roman.
 - Margins should be justified.
 - The abstract should contain objectives, methods, key findings and suggestions from findings.
 - It should not include diagram, footnote, equation or any parenthetical references.
6. Keywords
 - Five keywords in alphabetical order representing the work.
 - Font size should be 10 point Times New Roman.
 7. Introduction
 - The introduction should highlight the recent developments in the area of problem studied and should highlight the gaps and justify why the present work is undertaken.
 - Highlights how your study is going to link the existing gaps on such problem. You may also clearly mention the objectives of your study.

8. Methodology

The methodology section should include following things:

- Sampling techniques and sample size should be clearly mentioned.

सुचालिका
सचिव

- Measurement details including instruments and suppliers.
- Details of sampling site or study area, experimental set up, source of sample and year with months of study.
- Software with version used in data analysis or any other data analysis method adopted.

9. Results and Discussion

The results and discussion section should include following things:

- Mention major findings of your study in this section.
- Comparison how your data relate with previous work and in tune with objectives.
- All tables must bear titles and be placed above the table. All tables must be numbered as Table 1, Table 2 etc.
- All figures must bear title and numbered as Figure 1, Figure 2 etc. and be placed below each figure.

10. Conclusion

The conclusion section should include following things:

- In the conclusion section, aside from wrapping up the research by reiterating the goal of the study and confirm the major results or outcomes.
- Concrete recommendations be offered, there are some limitations of the current study.
- When similar works already reported; what new information the present work offers should be highlighted throughout the article in tune with the sections.
- The authors should discuss these limitations from which research directions for future studied may offered.

11. References

Use APA (American Psychological Association) for referencing.

12. Others:

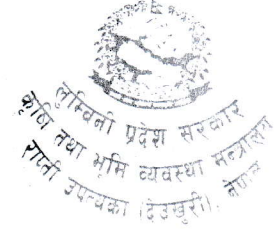

12.1. Fonts and size:

- Title and main headings: Times New Roman font of 14 font size, all letters capital except scientific names.
- Sub headings, table and figure titles: Times New Roman font of 12 font size in proper sentence format.
- Other parts of manuscript: Times New Roman font of 12 font size.
- अध्ययनको सार: Kalimati font (Dewanagari) of 11 point font size.
